

## Vacancy Project leader data analysis at Farminform

You will lead and collaborate on various data analysis research projects, often carried out together with partners. Partners can be research institutions, government institutions or industry. You direct the data traffic and the associated platforms. You prepare the data received from various sources and formats.

The results of the research will be reflected in datasets to be delivered, reports and possibly scientific publications. You contribute to innovations in the data analysis portfolio within Farminform.

### About Farminform

As an independent data trust, Farminform has been providing accurate insight into the Dutch pharmaceutical market for more than fifty years. The collection, enrichment and reporting of (logistical) data on medicines is Farminform's basic activity. Farminform invests in sustainable partnerships with organizations that help healthcare providers to use medicines appropriately and as efficiently as possible for their patients.

As the data needs of users change, the current business model is being developed further and expanded towards an integrated model that includes both clinical and pharmaceutical data.

### Job Requirements

We are looking for a team player who:

- Has obtained at least an MSc, preferably in a healthcare related field;
- Has experience in leading projects in the field of data analysis;
- Has experience in healthcare consulting and/or the pharmaceutical industry;
- Has good communication skills and is able to communicate ideas and knowledge in a clear and accessible way;
- Is customer and result oriented;
- Possesses an analytical approach;
- Has experience with data querying via SQL, data integration and preprocessing in Powerquery, PowerBI, Python and R;
- Has the drive to explore new technologies.

### We offer

- A varied and challenging job for 32 - 40 hours (0.8 - 1.0 FTE) in an inspiring work environment with a no-nonsense culture, short communication lines and high ambition level;
- An attractive salary;
- A working environment in Gouda, with flexible working hours;
- An excellent package of secondary benefits including a good pension plan and training opportunities;
- Opportunities to develop both personally and professionally.
